Crestwood Village Co-op Four, Inc.

15-E Moccasin Drive Whiting, NJ 08759 732-350-0230

Heating, Air-conditioning and Energy Efficiency Improvements to Co-op owned Homes

The Contractor and Certificate Holder (Member) hereby acknowledge Receipt of and agree to abide by the following Rules of the Village regarding alterations and modifications related to heating and air-conditioning systems and energy efficiency improvements to Co-op owned homes.

Member shall not install air-conditioning or heating equipment or apply insulation in attic, crawlspace, or walls without first submitting written Co-op approved Application and documentation on proposed scopes of work to be implemented and receiving written consent of the Co-op's Board to proceed.

Contractors must also provide current Insurance Certificate and NJ Licenses and file for and present to the Board all necessary Building, Electrical & Plumbing Permits from Manchester Township's Building Zoning Board before work starts. Permits must be displayed in full view. In the event Contractor fails to comply with these rules, the Co-op's Board of Trustees can require the Contractor to remove any or all of the non-approved improvements, modifications, or installations at the Contractor's expense.

The Contractor accepts liability for any damage to Co-op owned buildings resulting from or caused in the performance of work including but not limited to damage to building siding, brick work, roofing, and agrees that any such damage will be repaired at the Contractor's expense. Member agrees to be responsible for any damage to the building interior. Furthermore, if the Board of Trustees demands in writing that repairs be made and the repairs are not made within 10 calendar days of the demand, the Co-op shall have the right to make repairs deemed necessary and assess the Member for its costs.

The Contractor and Member shall likewise be responsible for damages caused by Sub-contractors. All building, electrical, plumbing, and other sub-contractors requiring NJ License performing work in the Village must submit Certificate of Insurance and current State of New Jersey License prior to work.

Conduits and covers for housing refrigerant and electrical line sets are not to be run horizontally along the exterior aluminum, vinyl, or brick siding of buildings. External condenser units shall not be attached to the siding or brickwork. Heat Pump Condenser Units must be elevated on an approved platform with sound and vibration dampening. Attic insulation upgrade must be baffled to allow for proper ventilation.

The Member, successor or estate shall be responsible for maintenance and repairs on all implemented improvements. Member must acknowledge in writing satisfactory completion of work performed by Contractor with a Certificate of Completion that includes a 24-hour Service Contact Name and Phone# covering all HVAC Equipment implemented as improvements and provide a copy of same to the Co-op.

Crestwood Village Co-op Four is not responsible for faulty workmanship or warranties for authorized improvements. Contractor acknowledges that scopes of work authorized are subject to inspection by Manchester Township and by Village Maintenance, and in the case of Programs of work under Home Performance with ENERGY STAR®, by NJ Clean Energy Inspectors. Contractor and Member agree to remedy any and all deficiencies found by Inspectors in a timely manner and at their own expense.

Contractors are not permitted to place signs or advertisements on Village property. Violation of these Rules by any Contractor may result in revocation of Contractor's right to work in the Village.
